

Environmental Statement

Torque recognises that it has a responsibility to the environment and is committed to reducing the environmental impact across all of its operations.

In order to achieve this we do the following:

- Conduct all of our operations in accordance with environmental legislation and regulations.
- Ensure that all of our locations are built, developed and operated in a manner that takes into account the needs of, and is sympathetic with, local wildlife.
- Investigate, and implement wherever practical, initiatives to reduce the energy consumption within our business.
- Reduce emissions from our fleet by ensuring efficient vehicle usage, optimal route planning and regular vehicle servicing and replacement.
- Reduce waste by means of compacting and materials recycling wherever possible.
- Work with our customers to help them reduce their own environmental impact.
- Work with our suppliers and contractors in order that they operate in an environmentally responsible manner.
- Encourage employees to be environmentally aware and provide facilities for recycling within the work environment.
- Each year consider, and where appropriate select, environmentally focused groups to be our chosen Community Project partners.
